Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner suggested proper Markush language by changing "comprising" to "consisting of" in claims 64 and 86. In addition, the use of "comprises" in claims 69-73, lines 2, was discussed since the scope of the bonding layer of independent claim 57 is "consisting of". Mr. Stimson noted that since dependent claims are limited to the scope of the language of the independent claim, the use of "comprises" in these claims could only open the composition up as much as the scope of the bonding layer composition of claim 57 and therefore did not present a conflict with the language of the independent claim.
